Education

B.Tech Computer Science & Engineering

Guru Tegh Bahadur 4th Centenary Engineering College, Delhi (2023 – 2027) | CGPA: 9.2/10.0

Experience

Full Stack Development Intern | Ashjyoti Eduserv Private Limited

July 2026 – September 2026

- Contributed to developing a role-based ERP system with five portals: Super Admin, Admin, Student, Teacher, and Receptionist.
- Designed and structured relational database schemas using Prisma ORM for student records, courses, batches, fees, scholarships, attendance, and enquiry management.
- Developed responsive user interfaces and reusable components using Next.js, React, TypeScript, Tailwind CSS, and shadcn/ui.
- Worked with Turborepo and pnpm workspaces to manage multiple applications and shared packages, supporting authentication flows, dashboards, and administrative workflows using NextAuth.js.

Projects

BookIT | Github Repository | Live Demo: bookit.repox.live

• Built a full-stack rental marketplace using Next.js, TypeScript, PostgreSQL, and Prisma, enabling users to list, rent, and book properties.

• Implemented secure authentication with NextAuth, separate dashboard for renter and host, advanced search and filtering, real-time availability management, reviews & ratings, and Razorpay payment integration.

• Optimized performance with ImageKit for image delivery and deployed the application on Vercel with a responsive UI built using Tailwind CSS.

Heart Attack Prediction using Machine Learning | Github Repository | Live Demo: streamlit

• Developed a machine learning application to predict heart attack risk using patient health parameters and classification models.

• Built an interactive web interface with Streamlit and integrated a trained Scikit-learn model for predictions.

• Deployed the application, enabling users to receive instant risk assessments through user-friendly interface.

Blogging Application | Github Repository | Live Demo: blog.repox.live

• Built a full-stack blogging platform using React, Hono.js, PostgreSQL, and Prisma, enabling users to create, edit, publish, and browse articles.

• Implemented secure authentication, article management, input validation with Zod, and REST APIs for efficient content handling.

Technical Skills

Languages: C++, JavaScript, TypeScript, Python, SQL

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, shadcn/ui

Backend: Node.js, Express.js, Hono.js, REST APIs

Databases & ORM: PostgreSQL, MongoDB, Redis, MySQL, Prisma ORM

Authentication: NextAuth.js

Tools: Git, GitHub, Docker, Linux, Nginx, Vercel, Turborepo

Training & Certifications

- Machine Learning Summer Training - Winnovation
- CS50x – Harvard University | Certificate PDF
- 100xDevs Cohort 2
